### E. Overall result <http://www.creasus.de/ikarus/HECrules.pdf>

- The total score of every sportsman will be determined by addition of best **2 ratings** in HEC-S and **best 3 results** in all other categories and total ranking.
- Separate **junior ranking** (born after 1997) will be created in all subcategories.
- The HEC **Total ranking** will be calculated as arithmetic average (HEC-S /2 - all other /3).
- In the **event of a tie** the **winner** will be determined by taking the result of the **4th best contest** after the final contest. If this doesn't separate the tied competitors, a **fly off** at the final weekend will solve the tie. In case of **not flown fly off** the next best contest result will be calculated. If this doesn't lead to a result, the lowest sum of place numbers (of only HEC contestants) will be taken (details with example see Appendix 3).
