

EUROPA COUPE Revival

19. - 22. August 2011

IKARUS CUP and DÄDALUS CUP of Switzerland

more than 150 participants from 22 countries invited to Ilbesheim

Dear participants of the *EUROPA COUPE Revival*,

the countdown is running and only a few days are left to the start of the competitions in Ilbesheim. The preparations are in full swing and we have experienced great support from the municipality and clubs of Ilbesheim. All inhabitants of Ilbesheim have been informed on behalf of the major and the organiser. The enclosed flyer has been put up as well.

In addition to the invitation, the following information is presented:

Arrival and registration

The Internet page "**How to find Ilbesheim**" <http://www.creasus.de/ikarus/gelaende.html> has been updated. We kindly request all participants to register upon arrival in Ilbesheim on Thursday from 15.00 onwards at the 'Schmahl' winery (indicated by „Anmeldung/Registration“). I kindly request all participants who intend to arrive later than 19.00 or on another day to notify me by email. Those who have already registered but cannot participate are kindly requested to notify the contest organisers until Tuesday by mail, later by telephone: 0049 163/ 7014884. This to minimize additional logistical efforts for starting pole allotment and time keeping organisation.

1. Camping and logistics

Due to the high number of participants who indicated to use the camping facilities (about 100, over 60%), we arranged two separate camping locations:

- **Camping 1:** for **tents** close to the main flying field on a lawn next to the line of shrub
- **Camping 2:** for **caravans, motorhomes** next to the winery 'Weingut Schmahl' on several meadows

Both sites will be equipped with toilets and fresh water facilities. Participants will be informed upon arrival about waste disposal. Shower facilities will be available at the soccer field (please follow the signs 'Sportplatz'), where two showers will be permanently available. We will arrange for additional shower cabins in the changing rooms at peak hours (e.g. after fly offs) depending on weather and demand.

2. Opening ceremony and briefing on Thursday, August 18th at 20.00

On Thursday, August 19th the official opening will take place behind the main hall of the Schmahl winery. A gratuity drink will be served and grilled sausages can be purchased. We would be thrilled to see you at this ceremony in great numbers. For all participating countries we hope at least one representative will be present. The local population will also be also invited and the Major will welcome you all. Also will be there given a briefing of the timetable with

rounds, startingplace, timing and the set up of the next day event. Please take care in case, you can't attend this briefing, that you will let you inform by your friends about the contest running plan of next day.

3. Catering on the flying field and in the evening

On all 3 contest days, catering will be available near the starting line as from 11.00 AM. Hot lunches, soft drinks coffee and cake will be served at moderate prices. Friday night will be 'pizza night'. The local pizzeria will offer a "Fliegerpizza" for 5€ at the hall of the Schmahl winery. Mr. Schmahl himself will organise the sales. At the banquet and prizegiving, the local soccer club will arrange for the meal and the Schmahl winery the drinks. On Sunday after the prize giving a gathering will be organised in the hall for those departing on Monday. We try to organize, that for the camping people fresh bread is available in the morning.

In summary: You will not be short of food and drinks during your stay.

4. Field rules

Attached you will find the field regulations and we request you to follow them strictly. We are guests of Ilbesheim and we should behave as such. In particular **no motorized vehicles are allowed to be used for model retrieval.**

5. Time schedule

The preliminary dates stated in the invitation and on page 3 of this info remain unchanged. The exact time schedule of round times will be determined at the opening ceremony depending on participation rates, weather forecasts and timekeeper availability. As announced, there will be timekeeping by fellow competitors since there will be not enough official timekeepers. Once again, we ask for voluntary timekeepers. Please bring your stopwatches and binoculars, also to equip other timekeepers.

6. Other matters

- for the foreign participants we have **stickers** for the models in German with a German cellular phone number. The stickers can be obtained at the registration.
- Please realize before venting any criticism, that we organise this competition on such a large scale for the first time and that the organisers have limited means. First of all, we organise to please. If everybody chips in with some help and follow the field rules, everything will run the smoother. Therefore we kindly request to help out where and whenever you can.... And remember, after all the will to participate and win, it is the fun in the sport and with friends as well as fair play which is just as important.

It is not important to win but to gain from participating

new friends, new experiences ...

In this sense, see you in Ilbesheim!

Ansgar Nüttgens

Organiser and Contest Director

T be reached by e-mails until Tuesday cob

Code of Conduct for the Ilbesheim competitions

We are pleased that the farmers allow us free-flight athletes to use their fields around Ilbesheim for our competitions and camping and welcome us.

General information about the general behavior on the site

- All participants and accompanying persons should behave like guests, so that no damage or contamination will take place. This is important for the farmers, but also for ourselves, so we can use these fields in the future.
- The camp - and flying site shall be abandoned by every individual, as he found it. So no littering! Please use the plastic bags at the appropriately marked locations to dispose your waste. We ask for active assistance!
- At the camping areas and near the launch field are portable toilets. Please use these and do not use the hedges at Campsites or on the field.

Important information about parking and driving on the campsite and the field

- Cars are only allowed on the campsite and at the with caution tape marked parking areas
- Only use the designated trails with sign FAI and CAMPING 1 and 2 and drive in walking speed to reach campsites
- Blocked roads may not be used or bypassed.

Important instructions for returning the models

- The retrieving of models is on foot or by bicycle.
- Driving on the roads with cars or motorcycles is not permitted, unless it is expressly permitted by the competition management.
- All fields that are locked or still bear fruit, may be entered only on the shortest way to get models out lying. Please respect the crops!

★ **A violation of these rules leads without exception to exclusion from the competition.** ★

We wish you
a lot of success and fun during
the competition days
